PROFESSIONAL SUMMARY

Highly motivated AWS Cloud Engineer with 5+ years of experience building secure and resilient infrastructures on AWS and over 15+ years of experience collaborating on IT projects.

WORK EXPERIENCE

AWS Cloud Infrastructure Engineer at K-LAGAN, Barcelona

April 2023 — Present

- Providing technical and expert support to the application development and help desk teams as a Level 2 combined with Level 3 support. Execution of daily operations, incident follow-up, change request management, and system performance tuning.

Lead, Infrastructure Specialist at Kyndryl (A spin-off of IBM), Quito

January 2021 — April 2023

- Deploying workloads and services on AWS using Infrastructure as Code (IaC). Designing and implementing security, connectivity, high availability, monitoring, analysis, continuous delivery, and database solutions.

IT IS Operation + L3 IS Support Engineer at TATA Consultancy Services, Quito

September 2015 — December 2020

- Deploying and migrating workloads from on-premise to AWS. Administering the UNIX / Linux servers (Oracle Solaris, Red Hat, and IBM AIX Operating Systems). Managing virtualization environments with Oracle SPARC and IBM Power Systems. Providing back-end support.

EDUCATION

Bachelor of Science in Computer Science, "Hector Alfredo Pineda Zaldivar" University of Sciences, Havana, Cuba

2007 — 2012

- A degree focused on specializing in Software Projects, Hardware Platforms, and Computing architecture.

PROFESSIONAL CREDENTIALS

AWS Certified DevOps Engineer - Professional

AWS Certified Solutions Architect - Professional

AWS Certified Security - Specialty

AWS Certified Advanced Networking - Specialty

AWS Certified Database - Specialty

VOLUNTEER WORK

AWS Community Builder at AWS, Cloud Operations

August 2022 — Present
